PROFESSIONAL SUMMARY

Java Backend Developer with hands-on experience building backend applications using Java, Spring Boot, Hibernate, and SQL/NoSQL databases. Skilled in designing RESTful APIs, implementing authentication and authorization, developing reliable backend services, and solving programming and data-structure problems. Experienced with JPA/JDBC, Spring Security, JWT, unit/integration testing, Git, and Agile development. Strong foundation in OOP, Collections, multithreading, exception handling, and database fundamentals, with an interest in scalable and high-performance backend systems.

TECHNICAL SKILLS

- **Programming Languages:** Java, SQL, JavaScript, Python
- **Frameworks/Technologies:** Spring Boot, Hibernate, Spring Security, Spring Data JPA, React.js
- **Backend Development:** REST APIs, CRUD Operations, JWT Authentication, Microservices Architecture (Basic)
- **Cloud & DevOps:** AWS (S3, CloudFormation), Docker, Kubernetes (Basics), CI/CD Fundamentals, Linux
- **Database:** MySQL, MongoDB, JDBC
- **Methodology:** Agile Methodology, SDLC, Code Reviews
- **Tools & IDEs:** Git, Maven, Postman, IntelliJ IDEA, Eclipse, VS Code
- **Core Concepts:** OOP, Data Structures & Algorithms, Multithreading, Exception Handling, Collections Framework
- **Web Technologies:** HTML, CSS

PROFESSIONAL EXPERIENCE

Java Developer Intern | Sentrex Consultancy

April 2026 – July 2026 | Remote

- **Developed backend modules** using Java, Spring Boot, Hibernate, and MySQL for web-based applications, following Agile practices with regular sprint standups and sprint reviews.
- **Designed and implemented REST APIs** for seamless communication between frontend and backend services.
- **Wrote unit and integration tests** using JUnit and Mockito to validate service and repository layers, improving code reliability and catching regressions early.
- **Implemented CRUD operations, authentication, and database connectivity** using Spring Data JPA and JDBC.
- **Deployed and managed AWS resources using CloudFormation** to support consistent, repeatable infrastructure provisioning.
- **Participated in code reviews** to maintain code quality, consistency, and adherence to team standards.
- **Managed and processed application data** using MySQL while ensuring data consistency and integrity.
- **Used Git, Postman, and IntelliJ IDEA** for API testing, version control, and day-to-day development workflows.

PROJECTS

Full-Stack Food Delivery App

React.js · Spring Boot · MongoDB · Spring Security · JWT · Razorpay · AWS S3 · REST APIs · Maven

- **Developed a full-stack food delivery platform** using React, Spring Boot, and MongoDB, supporting the entire user journey from menu filtering to secure checkout.
- **Built secure REST APIs** using Spring Security and JWT for authentication, cart management, order processing, and admin operations.
- **Integrated the Razorpay payment gateway** for real-time payment processing, payment verification, and order status management.
- **Developed an admin dashboard** with CRUD functionalities for managing food items, users, and orders.
- **Integrated AWS S3 with Spring Boot** for secure cloud-based image upload and media storage.

Smart Contact Manager

Spring Boot · Spring Security · Hibernate (JPA) · MySQL · Cloudinary · Thymeleaf · HTML/CSS/JavaScript

- **Built a full-stack contact manager** using Spring Boot and MySQL with 10+ REST endpoints and complete CRUD operations.
- **Integrated Cloudinary** for profile image uploads — multipart processing in Spring MVC, CDN URLs stored via Hibernate ORM in MySQL.
- **Implemented Spring Security** with session-based auth and role-based access control (Admin, User) protecting 8+ routes; secured API keys via @Value injection.
- **Applied MVC architecture** (Controller → Service → Repository) with a normalized MySQL schema across 5+ relational tables.

EDUCATION

B.Tech in Computer Science — Sagar Institute of Science & Technology, Bhopal

2022 – 2026 | CGPA: 6.85

Higher Secondary (12th) — Holy Cross Public School, Muzaffarpur, Bihar *2020*

– 2022 | 68.80%

CERTIFICATIONS

- Java Programming Fundamentals — Infosys Springboard (Dec 2024)
- Java Full Stack — CodeHunt (August 2025)
